GIRL IS CAPTIVE AT HOME FIVE MONTHS

Mother Says She Did Not Want Girl, 13, to Meet the Fate of Ruth Cruger.

NEW YORK, Nov. 15.—Thirteen-year-old Mary Gerrity, bright and pretty, saw the streets yesterday for the first time in more than five months.

She had been a prisoner in the home of her parents at No. 821 Forest avenue, the Bronx, where her mother kept constant guard over her night and day—never permitting her to leave her sight and restricting her even from the association of children of her nearest neighbor.

The girl had been faithful to her school studies, and her companions often wondered what had become of her. Her mother would not tell them, and recently several of Mary's playmates spoke to her teacher, who communicated with a truant officer.

Agents sent to Gerrity home. He called on the Gerritys—they live in three modestly furnished rooms—but he could not learn of the girl's whereabouts. "He took the

matter up with the Bronx Branch of the Society for the Prevention of Cruelty to Children, and two agents were sent to see the mother yesterday.

"Where is Mary?" one of them asked.

The mother slammed the door in their faces. They persisted and finally told Mrs. Gerrity that unless she produced the child they would be compelled to arrest her. The girl was brought out—neatly dressed and apparently happy, although she said she had longed for freedom. The mother told the agents that she intended to keep Mary in the house under guard.

"I don't want her to go out and suffer the fate of Ruth Cruger," was her only explanation.

Mother Is Taken to Bellevue. Mrs. Gerrity fought when the society informed her they were going to take Mary from her. It was some time before they succeeded in overpowering her. Then an ambulance was called and she was sent to Bellevue Hospital for observation.

At Bellevue physicians said Mrs. Gerrity was depressed and very quiet and that they would have to keep her under observation several days in order to determine her ailment.

The girl was taken to the Bronx Branch of the Children's Society, No. 555 East 137th street, where she told the officers her mother had treated her well, but would not let her have her liberty for fear she would be murdered.

FIRST IN RED CROSS DRIVE.

Theodore N. Vail is No. 1 in Campaign for 15,000,000 Members. WASHINGTON, Nov. 15.—Theodore N. Vail, chairman of the Red Cross Christmas membership com-

mittee, has started the campaign for 15,000,000 new members with his own subscription. Mr. Vail, in his letter to the district chapter, made public tonight, said: "Even 15,000,000 must start with one and I hope my own will be the first one to the Christmas membership of the Red Cross."

NEWSY NOTES OF O. A. C.

Oregon Rapidly Organizing—Pruning School for Fruitmen—Professor Writes Book—Will Auction Borrowed Animals.

With the appointment of Henry E. Fred as county agricultural agent of Baker county the twenty-second Oregon county has swung into line for organized agriculture under the county agent plan advised by the U. S. department of agriculture as part of the federal food administration campaign. Seven of these men have been appointed since the war emergency arose and new agents are to be introduced into still more counties. Oregon is "coming."

Putting a run-down orchard on its feet, utilizing the power of fruit spurs, making young orchards bear a year ahead of its "uneducated" neighboring trees, are some of the big things to be handled at the Pruning School to be held at O. A. C. December 19 to 15.

"Western Livestock Management" is the title of a new book on western livestock production by Professor E. L. Potter, head of animal husbandry at O. A. C. The book is edited by L. H. Bailey, the great Cornell scientist, and has been made a part of the rural science series. It deals in a practical way with problems of cattle, horses, sheep, and hogs, not telling what stockmen ought to do but what the best stockmen are doing.

Livestock will be borrowed by students at O. A. C. from accommodated neighbors, and auctioned off for practice in judging and marketing livestock in the west. It will give freshmen who expect to try for places in the judging team of the Withycombe Club opportunity to learn the good and the bad market and breeding point of various classes of animals.

BENSON HAS BREAD PROBLEM

him to prove that there is waste on the part of certain food purveyors. She is demanding to know how it is possible for a man to be doing this deliberately, as she is convinced this is the case with many of the foreigners.

Commissioner Benson is intent now on stopping the bombardment of state bread, as he has no chickens or pigs to feed it to here. It is expected the federal government may handle the winter wheat later, but there is no way of reaching them now. Mr. Benson has wired Mrs. Coffin at Aberdeen to send him no more stale bread as he is convinced she has found much waste.

DEMAND FOR READY-MADE HOUSES GREAT IN EUROPE

UNIVERSITY OF OREGON, Eugene, Nov. 15.—That Oregon manufacturers will find a ready market for ready-built houses in the reconstruction of the battle-torn provinces of France and Belgium, is the firm conviction of R. R. Miller, director of the University school of commerce.

The school of commerce is in constant receipt of advices from Europe indicating that knock-down houses already are in heavy demand there. The demand, he believes, will be even greater after the war.

Several manufacturers in Portland already are in communication with authorities in Belgium and France with the view of entering those markets.

PACIFIC MEETING SPEAKS IN CHICAGO GUARDED BY POLICE

One Person in Big Audience Joins Council for Democracy at \$5 a Membership.

FIND JEWISH RABBI GUILTY.

BEAULIEU, Nov. 14.—Rabbi H. Gens, who appeared from the police court, was today found guilty of violating the city ordinance regarding the possession of liquor, a quantity of intoxicants having been found in his home when he was arrested recently. In his findings Judge Everett Smith said: "It is my deliberate conclusion

EAT WITHOUT FEAR OF INDIGESTION OR SOUR, ACID STOMACH

INSTANT RELIEF! "PAPES DIAPERSIN" ENDS YOUR STOMACH DISTRESS. TRY IT!

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; if acid, indigestion, belch gases and acid, and eructate undigested food; if breath foul, tongue coated—just take a little of Pape's Diapersin to help neutralize acidity and in five minutes wonder what becomes of the indigestion and distress.

Millions of men and women today know that it is useless to have dyspepsia. A little Diapersin occasionally keeps the stomach sweetened and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapersin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops fermentation and acidity and sets things straight, so gently and easily that it is really astonishing.

that Rabbi Gens has recklessly and wilfully used his liberty as a clergyman to accommodate his friends to obtain liquor which they could not lawfully secure otherwise, and in that in spirit and in act, he has violated the city ordinance as charged."

OHIO DETERS PROHIBITION.

Majority Against Measure 1725, of 1917 Reports Show.

CINCINNATI, Nov. 14.—With every county in the state having reported officially, prohibition in Ohio has been defeated by a majority of 1725 on the face of returns. The total vote stands: For prohibition, 522,120; against, 824,153.

B. & O. Stops Observation Sleepers.

BALTIMORE, Md., Nov. 11.—The Baltimore & Ohio railroad announced today that at the suggestion of the government it would eliminate observation sleeping cars from its trains.

WILLYS-KNIGHT

Performance has proven the Knight sliding sleeve valve motor superior to all other types.

Superior in power, in flexibility, in quietness, in simplicity, in freedom from carbon troubles. And the only motor that improves, instead of deteriorates with use.

That is why it is important that you should know the advantages of the Knight Motor.
